T2S: MIGRATION TO ESMIG IN UTEST

Attention to: **DCP only**

Priority: **High**

Object: **Preparing for the migration to ESMIG in UTEST for T2S**

Dear Client,

in the context of the Market Infrastructure Services' Consolidation project, the Eurosystem Single Market Infrastructure Gateway (ESMIG) will provide a single access point for external inbound and outbound communication to all the TARGET Services, the market infrastructure common components and applications.

European Central bank will launch ESMIG for the T2S platform according to the following timeline:

- Migration to testing platform (UTEST): 02/05/2022
- Migration to production platform (PROD): 04/07/2022

As DCP you have to be ready to access ESMIG from July, 4th (T2S Release 6.0- CR 701). Based on the Connectivity Guide already sent, the following preliminary activities are required by DCP to successfully connect to ESMIG:

- choose your Network Service Provider (NSP) and sign a contract with them by June,30th 2021
- test your network connectivity in the T2S testing platform (UTEST) by May,2nd 2022

- test your network connectivity in the T2S production platform by July, 4th 2022

Additionally, in order to start User Testing phase in UTEST for T2S (from 02/05/2022), Euronext Securities Milan has grant the following specific privileges to each DCP Parties to allow them to access GUI via ESMIG for:

- Target 2 Securities (T2S) → T2S_Access
- Common Referential Data Management (CRDM) → CDRM_Access
- Business Day Management (BDM) → BDM_Access

As DCP, your Party Administrator is required to grant these privileges to your internal users in order to allow them to operate in ESMIG and start the testing by May, 2nd 2022.

Please note that "CRDM_Access" privilege has been already granted to your Party Admin through "DCP-Admin" role. This means that your Party Admin. is required to directly grant only "T2S_Access and BDM_Access" privileges (not via role), if needed.

As far as the other users is concerned, your Party Admin. can grant the new role "DCP-Access" to other users to allow them the access to the GUIs via ESMIG.
